

SAFE AND SMART

The innovative SmartcanMax™ promotes safe trash removal for employees by eliminating the strain of lifting heavy trash bag liners out of the can. Anyone can use it, regardless of size or stature. No more mess and tearing of bag liners upon removal.

SAVES YOU TIME AND MONEY

Taking out the trash is no longer a two-person job but can be handled safely and easily by one - saving time and reducing labor costs.

The patented SmartcanMax™ component-based design allows for it to be easily cleaned and maintained. Its body, base and funnel can be replaced separately - guaranteeing cost savings and years of potential service, as opposed to complete can replacement.

Because of the inverted shape, SmartcanMax™ is more stable and allows users to fill each trash bag liner to full capacity - optimizing liner usage. Less frequent emptying increases employee productivity and keeps waste where it belongs - in the trash bag.

SmartcanMax™ can also be customized with color and graphics, subject to order minimums.

WHAT OUR CUSTOMERS ARE SAYING:

"Amazing...such a simple idea has improved an important ongoing and necessary part of our business operations"

"SmartcanMax™ is bulletproof"

"This is a unique ergonomically sound product."

"They work perfectly every time"

"Exactly as advertised, and better!"

"We use SmartcanMax™ in a team member trained restaurant and believe this trash can outperforms any existing type of waste receptacle."

"This product is a game changer"

INTRODUCING THE REVOLUTIONARY
SMARTCANMAX™

I eliminate liner struggle 100%.
So you don't have to be a BRUTE.

EZ DUMP
COMMERCIAL INC

1-800-944-5011 PO Box 2415 Phoenix, AZ 85002
www.ezdumppcommercial.com

ELIMINATES THE STRUGGLE
TO REMOVE HEAVY LINER BAGS.
GUARANTEED.

WE HAVE DESIGNED AND CREATED A REVOLUTIONARY TRASH CAN

With the patented SmartcanMax™ you don't take the trash out of the can. You take the can off the trash!

- Safe, efficient, easy and more convenient
- Users never struggle to remove a trash bag
- Easy to clean - component based
- Durable and industrial grade
- Patented American innovation

Features include:

- V-grips - to hold trash bags securely in place
- Funnel - provides larger opening for use in high volume food preparation areas and secures the bag
- Detachable body - allows users to easily remove the trash bag, and keep SmartcanMax™ clean
- Various colors and graphics available

QUALITY DESIGN MADE IN THE USA

The SmartcanMax™ slim profile fits in virtually any waste collection area, and makes it effortless to remove the trash bag. The funnel top locks the trash bag securely in place and sits just below standard commercial countertop height for added convenience.

Superior engineering and design, commercial grade manufacturing, and 100% recyclable and sustainable material results in a durable and rugged product. SmartcanMax™ is perfect for your toughest waste receptacle needs. Proudly made in the USA.

OUR 5-YEAR NO HOLES WARRANTY PROVIDES UNBEATABLE ROI

EZ Dump Commercial Inc. products are backed by our 5-Year No Holes warranty*. Our return-on-investment is undeniable and the safety value and potential savings we provide is an industry first.

* Excluding fire, flame or hot grease, applies to the base component of the SmartcanMax™ unit only.

HOW SMARTCANMAX™ WORKS:

1

Tie the liner bag closed. If using a SmartcanMax™ funnel, remove the funnel first.

2

Step firmly on one SmartcanMax™ release pedal to unlock and then remove the SmartcanMax™ body, by tilting and lifting it slightly, off of the full trash bag.

3

Get into a safe lifting position by facing the trash bag with your feet, knees bent, back straight, head up.

4

Simply remove the full trash bag from the SmartcanMax™.

Note: Always lift carefully

5

Place the SmartcanMax™ on its base, and snap it in position. Insert a new trash bag, gathering and tucking the excess into a v-grip channel on the rim. If you are using a funnel, snap back into place.

US Patent # 7,913,871

Did you know? It is estimated US employers pay over \$1 billion per week for direct workers' compensation costs. This does not include indirect costs.

Back injuries are OSHA's #1 worker incident. Average U.S. back injury cost is \$37,000
